Being one of three biggest events of its kind in the whole of **Germany**, **ART.FAIR Cologne** attracts more than 35,000 visitors each year. This comes as no surprise, as **more than 100 national and international participants bring only the best of Modern and Contemporary art**, made by both renowned and promising artists. Coming back for the **14th time** this fall, the organizers have prepared yet another robust program for collectors and art lovers alike, ready to enrich their collections and provide them with a unique purchasing experience. With established series like *15 Minutes of Fame*, as well as some first-time programs, the event will connect gallerists, curators, collectors and art enthusiasts this October in one of Germany's most vibrant artistic cities.
